

### SWCHR Leg 4 2016

Return along the river to join the landrover track at checkpoint 8 (ignore the checkpoint), go south on the track to a gate on the right opposite cottages at 765246, then across the field to the river and over the bridge. Then up to the col at 763238, turn left and along the track to Checkpoint 9 at the monument.

Return to the col and turn left down a path, through a gate and onto a recently bulldozed hill road. Go west down the hill road, to reach new Checkpoint 10 at a sharp turn left after the gate at 750236. Go south east along the track and cross the burn using the new small bridge at Checkpoint 11 and climb back up to the Glen Lednock road at 764227. Turn left and along the road for 700m to Checkpoint 12, then turn right down the path through woods to emerge onto the main road in Comrie. Turn left into School Street and follow the path straight on to Laggan Park and the finish.
